PRODUCT DESCRIPTION TECHNO THERMO -50°C ULTRAGRIP

The Techno THERMO -50°C UltraGrip offers the best comfort, safety and durability in cold environments. It offers thermal insulation down to -50°C / -58°F. Techno THERMO keeps your feet dry and warm in the coldest working conditions. The boot is resistant to oils, fats, organic solvents and a variety of chemicals. The UltraGrip SRC outsole offers superior safety in all conditions. Thanks to the best BASF polyurethane raw material this is the world's most comfortable thermo boot. Lightweight, strong, flexible and with a durability 3 to 4 times longer compared to the traditional pvc and rubber boots. The superior durability offers important cost savings. The orthopedic, removable footbeds with arch support give you the comfort you deserve. Techno THERMO - 50°C UltraGrip : the best solution in cold environments. No more heavy or tired legs after a hard day's work. Techno THERMO has the following certificates : CE, CSA, S4, S5, SRC (SRA + SRB), CI (cold insulation).

ABOUT TECHNO BOOTS

Techno Boots is built on a foundation of 25 years in the footwear industry with the mission to provide top quality, durable and the world's most comfortable boots.

Techno Boots has invested in the latest German DESMA machine technology and works with the finest raw material suppliers. All Techno Boots models are CE certified and are complying the highest safety standards. Currently producing with an annual capacity of over half a million pairs per year – Techno Boots applies ISO 9001 standards and follows rigorous health and safety regulations.

Techno Boots manufactures the world's most comfortable boots in Turkey for export to more than 40 countries worldwide. Techno Boots manufactures a complete range of polyurethane boots specifically developed for sectors like agriculture, dairy farming, food processing, slaughterhouses, commercial fishery, aquaculture, construction, mining, oil & gas, general industry, gardening, hunting, leisure, cold storage rooms, ...

Techno Boots are produced with the best BASF polyurethane raw material making them super light, very comfortable, strong, durable, flexible and offering an excellent thermal insulation. Also thanks to its competitive pricing policy Techno Boots is always value for money offering considerable cost savings.
